

SuperFine® Powders

A SUPERFINE® FUTURE

We asked ourselves a simple question: How can we process botanicals as minimally as possible while preserving all the natural goodness and amazing flavor? We take the finest ingredients and then mill them real fine – or as we say, super fine – without using any additives or carriers. They are so fine, they fit perfectly into many food matrixes and they pack a big punch when their flavor reaches your mouth in a SuperFine® taste explosion.

SUSTAINABLE

FIT FOR TODAY AND TOMORROW

The shift to natural ingredients and more health-conscious eating is in full swing. During this time of exciting change, the Martin Bauer Group is creating new opportunities with SuperFine® – our 100 % natural range of finely ground powders for food and beverages. SuperFine® is sourced from the highest-quality botanicals, delivering the flavor and nutrition that fit perfectly to today's consumer lifestyles and tomorrow's trends.

INSTANT POWDER

Our natural SuperFine® botanicals are mainly available in organic, a few are only available in conventional quality and our standard teas have Rainforest Alliance certification. In addition to the standards we have a wider range available on request. Our microbiological standard is aimed at the food and drink industry but it can also be tailored to meeting your specific safety requirements. Please do not hesitate to contact us for further questions. We look forward to hearing from you regarding your individual requirements.
